5th Grade News

Writing

This week students spent time researching their movement/era that impacted the US. Next week we will begin organizing our research into our writing organizer to prepare for our opinion writing piece.

Social Studies

Much of writing and social studies will be incorporated in this unit as students research movements/eras that impacted the U.S. We will also learn about other movements, reforms and eras together, such as the Gilded Age and the Progressive Era.

Math

We will be focusing on the relationship between function tables and coordinate grids. This will be followed by diving into understanding and creating algebraic expressions.

Science

In science we are continuing to understand matter in its different forms. What is matter, how does it change and what can cause it to change?

Reading

We will be moving back into finding the main idea and supporting details within informational texts. We will also be comparing Main Ideas across texts.
